

Steve Vick International manufactures and distributes equipment, including trailers for trenchless technology and materials for repair and re-installment of gas, water mains and services, and for the flow stopping of pipework and the laying and protection of underground cables. Supply of contract labour and hire of specialist equipment.

We are committed to protecting the local and global environment. To minimise environmental impacts concerning our activities, products and services, we shall:

- Provide continual improvement in its environmental performance
- Preventing pollution
- Compliance with all environmental legislation, regulations and codes of practice relevant to the industry sector in which it operates.

It is the policy of Steve Vick International to:

- Make efficient use of natural resources by conserving energy and water, minimising waste, and recycling where possible
- Meet its duty of care requirements in relation to waste by ensuring the safe keeping, transportation and subsequent recovery or disposal of waste
- Use recycled materials whenever these can be commercially justified
- Keep transport use to a minimum and regularly service vehicles to maintain their efficiency
- Work with suppliers to ensure they recognise and reduce the environmental impact of their products and transportation.
- Work within the guidance of ISO 14001 to ensure we are an environmentally responsible company.

Steve Vick International will review this policy on an annual basis, taking account of any changes within legislation and our organisation, and other factors.

We will communicate this policy to all our employees and ensure that they are given appropriate training to raise awareness of environmental issues.

Steve Vick International will make this policy available when requested to interested parties including members of the public.
