PRODUCT SAFETY DATA SHEET

POLYURETHANE HARDENER MX-1

According to the REACH Regulations EC No 1907/2006, as retained and amended in UK law, and based on EU 2020/878. Issue date 13/11/2023 Version 7

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product form: Mixture

Product name: POLYURETHANE HARDENER MX-1

1.2 Product identifier

1.2.1 Relevant identified uses

Main use category: Professional use

Use of the substance/mixture: Sealant

1.2.2 Uses advised against

Restrictions on use: No uses have been identified that are advised against

1.3 Details of the supplier of the safety data sheet

Supplier: Steve Vick International Limited

19 Treenwood Industrial Estate

Bradford on Avon

BA15 2AU

Tel 01225 864 864 email: info@stevevick.com

1.4 Emergency telephone number

EMERGENCY TELEPHONE NUMBER: +44(0)207 858 1228

SECTION 2: Hazard Identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP], as amended for UK law

Acute toxicity (inhalation:dust,mist) Category 4H332Skin corrosion/irritation, Category 2H315Serious eye damage/eye irritation, Category 2H319Respiratory sensitisation, Category 1H334

PRODUCT SAFETY DATA SHEET

tract irritation

Specific target organ toxicity - Repeated exposure, Category 2,

Full text of H- and EUH- statements: see section 16

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008 [CLP], as amended for UK law

Signal Word (CLP)

Danger

Contains

(CLP)

4,4'-methylenediphenyl diisocyanate; diphenylmethane-4,4'-diisocyanate; Formaldehyde, oligomeric

H373

reaction products with aniline and phosgene,

Hazard Statements (CLP) H315 Causes skin irritation

H317 May cause as allergic skin reaction H319 Causes serious eye irritation

H332 Harmful in inhaled

H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled

H335 May cause respiratory irritation H351 Suspected of causing cancer

H373 May cause damage to organs (lungs/respiratory system) through prolonged or repeated exposure

(inhalation)

Precautionary Statements P201 Obtain special instructions before use.

P271 Use only outdoors or in a well-ventilated area.

P280 Wear eye protection, face protection, protective gloves. P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if

present and easy to do. Continue rinsing.

P342+P311 If experiencing respiratory symptoms: Call a POISON CENTER / doctor.

P501 Dispose of contents and container to hazardous or special waste collection point, in accordance with

local, regional, national and/or international regulations.

EUH-statement EUH204 - Contains isocyanates. May produce an allergic reaction

Extra phrases As from 24th August 2023 adequate training is required before industrial or professional use

2.3 Other hazards

Contains no PBT and/or vPvB substances ≥ 0.1% assessed in accordance with REACH Annex XIII

The mixture does not contain substance(s) included in the list established in accordance with Article 59(1) of REACH for having endocrine disrupting properties, or is not identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0.1%

SECTION 3: Composition/information on ingredients

3.1 Substances

Not applicable

PRODUCT SAFETY DATA SHEET

3.2 Mixtures

Name	Product identifier	%	Labelling according to Regulation (EC) No 1272/2008 [CLP], as amended for UK law
Formaldehyde, oligomeric reaction products with aniline and phosgene substance with national workplace exposure limits(s) (DE, SI)	CAS number: 9016-87-9 EC number: 500-079-6	≥60	Acute Tox. 4 (Inhalation), H332 (ATE=1.5mg/l/4h) Skin Irrit. 2, H315 Eye Irrit. 2, H319 Resp. Specific concentration limits:							
Name	Product identifier	Specific concentration limits					
4,4'-methylenediphenyl diisocyanate;	CAS number: 101-68-8	(0.1 ≤ C ≤ 100) Resp. Sens. 1, H334					
Diphenylmethane-4,4'-diisocyanate	EC number: 202-966-0	(5 ≤ C ≤ 100) Eye Irrit. 2, H319					
	EC Index-No: 615-005-00-9	(5 ≤ C ≤ 100) Skin Irrit. 2, H315					
		(5 ≤ C ≤ 100) STOT SE 3, H335					

The full text for all hazard statements is displayed in Section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

First aid measures general If you feel unwell, seek medical advice (show the label where possible)

Inhalation: Remove person to fresh air and keep comfortable for breathing. Maintain an open airway.

Loosen tight clothing such as collar, tie or belt or waistband. If breathing is difficulties persist:

Give oxygen or artificial respiration if necessary.

Ingestion: Rinse mouth out with water. Do not induce vomiting. Give nothing or a little water to drink. Call a

poison centre or a doctor if you feel unwell.

Skin: Wash immediately with plenty of soap and water. Take off immediately all contaminated clothing

and wash it before reuse. Sensitisation: contact can cause allergic reactions in humans. Seek

medical attention if ill effect develops.

Eyes: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and

easy to do so. Continue rinsing.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms/effects after inhalation Inhalation may cause irritation (cough, short breathing, difficulty in breathing)

Symptoms/effects after ingestion May cause discomfort. May cause stomach cramps and vomiting

Symptoms/effects after skin contact May cause sensitisation by skin contact. Repeated exposure may cause skin dryness or cracking **Symptoms/effects after eye contact** Irritating to eyes

PRODUCT SAFETY DATA SHEET

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically. May cause sensitisation of susceptible persons by skin contact

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media: If there is a fire close by, use suitable extinguishing agents. Water spray. Dry powder. Foam

Unsuitable extinguishing media: Use of heavy stream of water may spread fire.

5.2 Special hazards arising from the substance or mixture

Fire hazards Not flammable. Heating will cause a rise in pressure with a risk of bursting.

Explosion hazard No data available on direct explosion hazard. No data available on indirect explosion hazard.

Hazardous decomposition products Toxic fumes may be released.

in case of fire

5.3 Advice for firefignters

Precautionary measures fire Evacuate area. Eliminate all ignition sources if safe to do so.

Firefighting measures Evacuate area. Eliminate all ignition sources if safe to do so. Use wate spray or fog for cooling

exposed containers.

Protection during firefightingDo not attempt to take action without suitable protective equipment. Self-contained breathing

apparatus. Complete protective clothing.

Other information On exposure to high temperature, may decompose, releasing toxic gases

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

General measures Collect spillage. Dispose of contaminated materials in accordance with current regulations.

6.1.1 For non-emergency personnel

Protective equipment Wear recommended personal protective equipment.

Emergency procedures Ventilate spillage area

6.1.2 For emergency responders

Protective equipment Do not attempt to take action without suitable protective equipment. For further information refer

to section 8. "Exposure controls/personal protection".

Emergency procedures Evacuate unnecessary personnel. Keep away from combustible material.

6.2 Environmental precautions

Avoid release to the environment

6.3 Methods and material for containment and cleaning up

For contamination Keep unnecessary and unprotected personnel away from spillage. Turn leaking containers leak-

side up to prevent the escape of liquid. For large spillage, contain the spillage by bunding. Collect the residue by means of a non-combustible absorbent material. Using a clean shovel, put the

material in a dry container and cover without compressing it.

Methods for cleaning up Mechanically recover the product

Other information Dispose of contaminated materials in accordance with current regulations

6.4. Reference to other sections

For further information refer to Section 8. "Exposure controls/personal protection". For further information refer to section 13.

PRODUCT SAFETY DATA SHEET

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Precautions for safe handling:

Hygiene

Ensure good ventilation of the work station. Wear personal protective equipment.

Do not eat, drink or smoke when using this product. Always wash hands after handling the

product. Keep container tightly closed and away from heat, sparks and flame.

7.2 Conditions for safe storage, including any incompatibilities

Storage conditions Store in well ventilated place. Keep cool

Storage areaStore in well ventilated place.Special rules on packagingStore in closed container.

7.3 Specific end use(s)

No additional information available

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

8.1.1 National occupational exposure and biological limit values

No additional information available

8.1.2 Recommended monitoring procedures

No additional information available

8.1.3 Air contaminants formed

No additional information available

8.1.4 DNEL and PNEC

4,4'-methylenediphenyl diisocyanate, diphenylmethane-4,4'-diisocyanate (101-68-8)

8.2.2.4 Thermal hazards

No additional information available

8.2.3 Environmental exposure controls

Environmental exposure controls:

Avoid release to the environment.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state Liquid Colour Brown **Appearance** Clear liquid Odour Mild. **Odour threshold** Not available Not determined. **Melting point Freezing point** Not available **Boiling point** 245°C @ 760mm Hg **Flammability** Not flammable

Not determined. **Oxidising properties** Does not meet the criteria for classification as oxidising.

Explosive limits Not applicable. Lower explosion limit Not available **Upper explosion limit** Not available Flash point 230°C Closed cup. **Auto-ignition temperature** Not available. **Decomposition Temperature** Not available. рΗ Not determined. Viscosity, kinematic Not available

Viscosity, dynamic 180 - 240 mPa s @ 25°C

Solubility Not available

Partition coefficient

Explosive properties

n-octanol/water (Log Kow) Not available. Vapour pressure Not determined. Vapour pressure at 50°C Not available. Density Not available. **Relative density** 1.23 @ 20°C Relative vapour density at 20°C Not determined. **Particle characteristics** Not applicable

9.2 Other information

9.2.1 Information with regard to physical hazard classes

No additional information available

9.2.2 Other safety characteristics

No additional information available

SECTION 10: Stability and reactivity

10.1 Reactivity

This product is non-reactive under normal conditions of use, storage and transport

10.2 Chemical stability

PRODUCT SAFETY DATA SHEET

Stable at normal conditions

10.3 Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use

10.4 Conditions to avoid

None under recommended storage and handling conditions (See section 7)

10.5 Incompatible materials

No additional information available

10.6 Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity (oral)Not classified.Acute toxicity (dermal)Not classified.Acute toxicity (inhalation)Harmful if inhaled.

12.4 Mobility in Soil

No additional information available

12.5 Results of PBT and vPvB assessment

No additional information available

12.6 Endocrine disrupting properties

No additional information available

12.7 Other adverse effects

No additional information available

PRODUCT SAFETY DATA SHEET

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste treatment methods HP Code:

Dispose of contents/container in accordance with licenced collector's sorting instructions. HP5 – "Specific Target Organ Toxicity (STOT)/Aspiration Toxicity:" waste which can cause specific target organ toxicity either from a single or repeated exposure, or which cause acute toxic effects following aspiration.

HP6 – "Acute Toxicity:" waste which can cause acute toxicity effects following oral or dermal administration, or inhalation exposure.

HP7 – "Carcinogenic:" waste which includes cancer or increases its incidence.

HP4 – "Irritant – skin irritation and eye damage:" waste which on application can cause skin irritation or damaging to the eye.

HP13 – "Sensitising:" waste which contains one or more substances known to cause sensitising effects to the skin or the respiratory organs.

15.2 Chemical safety assessment		
Acute Tox. 4 (Inhalation)	Acute toxicity (inhal.), Category 4	
Acute Tox. 4	Acute toxicity	
(Inhalation:dust,mist)		
Carc. 2	Carcinogenicity, Category 2	
EUH204	Contains isocyanates. May produce an allergic reaction.	
Eye Irrit. 2	Serious eye damage/eye irritation, Category 2	
H315	Causes skin irritation.	
H317	May cause an allergic skin reaction.	
H319	Causes serious eye irritation.	
H332	Harmful if inhaled.	
H334	May cause allergy or asthma symptoms or breathing difficulties if inhaled.	
H335	May cause respiratory irritation.	

PRODUCT SAFETY DATA SHEET

H351	Suspected of causing cancer.	
H373	May cause damage to organs through prolonged or repeated exposure.	
Resp. Sens. 1	Respiratory sensitisation, Category 1	
Skin Irrit. 2	Skin corrosion/irritation, Category 2	
Skin Sens. 1	Skin sensitisation, Category 1	
STOT RE 2	Specific target organ toxicity – Repeated exposure, Category 2	
STOT SE 3	Specific target organ toxicity – Single exposure, Category 3, Respiratory tract irritation	

This classification complies with ATP 12
