

Enhanced 180 Pipe Coil Trailer

For the safe transport, storage and dispensing of coiled PE from 40mm to 180mm.

Accommodates a 100 metre coil of 180mm SDR 11/17 PE. Leading end of PE is strapped to frame, preventing potential 'spring', avoiding injury hazard.

Enhanced safety features designed to improve operator safety during dispensing.

Sliding guards allows easy access for fitting coil end restraints, ensuring maximum safety.

Mesh guarding on all four quadrants keeps coils securely contained.
